

August 2016

To the Parents / Guardians of Middle School Students,

Students in grades 6, 7 and 8 will receive 6 weeks of Health instruction this school year. Your child will be learning about nutrition, making healthy choices, team building, the dangers of drugs / alcohol, disease prevention, human growth and development.

Parents who would like to view the instructional materials used in the Health classes should feel free to contact their child's Health teacher at (847) 566-9384.

If you do not want your child to participate in lessons on AIDS / HIV prevention or the human reproductive system, please return the attached waiver request form within seven days so the school can make alternative arrangements for your child.

The staff at Fremont understands that this is a sensitive topic for our students and their families. It is our intention to keep you informed and a part of your child's education.

Sincerely,

Elizabeth Freeman, Ed.D.
Director of Innovative Learning, Teaching and Technologies
