

## **Please consider opening your heart and home to an international high school student for the 2017/18 school year!**

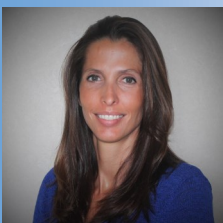

CIEE has many amazing students looking for caring homes so they can experience the wonderful things our country has to offer!

Our international students come from over 70 countries, are thoroughly vetted and held to high expectations, and are excited to experience American life!

All students have their own medical insurance and spending money.

Host families come from all walks of life. Single, married, homes with children or without, empty nesters, retirees— lots of people make great hosts!

For more information, please contact Kate Pedigo, CIEE Local Coordinator.
